## **DON'T DELAY HOME IMPROVEMENTS UNTIL WINTER**

The foliage is changing and soon we will enjoy these magnificent bursts of gold and red. And it is so easy to relax in the beauty and delay the season's needed home improvements. Larger problems and costs could be ahead if repairs are put off.

Take the time and go through the house and around the property to know which areas are in need of repairs and upgrades. Here is a list of possible jobs to consider:

### **Exterior:**

Fix the fence.

Trim bushes and trees, mow and fertilize the lawn, improve the landscape.

Repair or replace roofing and gutters.

Clean and seal the deck.

Repaint, install siding, re-caulk and install weather stripping.

Fill up cracks in the walkways and driveway.

Repair or replace doors and windows.

### **Interior:**

Remodel and decorate with professional help.

Install closets and storage organizing areas.

Repaint and enjoy the newness of colors.

Clean the carpets, redo the flooring.

Remove all the rubbish.

### **When finished:**

Call in the Personal Chef and have a party.

Oh, and before you forget: set up an appointment with your tax consultant and financial planner. There may be hidden treasures in their good advice.

Licensed and insured home improvement vendors are referred **FREE OF CHARGE** by McLean Concierge Services. Contact our Concierge Desk at 703-714-8616 or [mcleanconcierge@cox.net](mailto:mcleanconcierge@cox.net)
